

Session IV: Environmental Health II

When I came home from class tonight, there were so many diesel trucks on the roads. Diesel exhaust

---

---

---

---

---

---

But how can an environmental problem hurt us?

Global warming is an environmental problem, but it is also a human health problem. Did you know

---

---

---

---

---

---

?

So is everyone in the whole world going to feel it?

Even though climate change is warming the whole globe, some people will be hurt more. For example

---

---

---

---

---

---

But what can I do about it??

One of the things I learned that we can do is

---

---

---

---

---

---

---

---
